

Selected Topics Registration

A course offered on a subject of interest but not a cataloged course. With approval, may count toward major, minor, and/or foundational core curriculum.

Approvals of the academic advisor, instructor, and course department chair are required before submitting this form to the Office of the Registrar.

A course may not be offered as selected topics more than 3 semesters. A fourth offering would require a permanent, cataloged course number.

Please clearly print all information.
