13.1315	Teacher Education - Reading	PG	
13.1318	Teacher Education - Social Studies	Both	
13.1309	Teacher Education - Technology/Industrial Arts	PG	

Total number of teacher preparation programs:

23

Program Requirements

Check the elements required for admission (entry) into and completion (exit) from the program. If programs are offered at the undergraduate level and postgraduate level, complete the table for both types of programs. [\(\\$205\(a\)\(1\)\(C\)\(i\)\)](#)

THIS PAGE INCLUDES:

- >> [Undergraduate Requirements](#)
- >> [Postgraduate Requirements](#)
- >> [Supervised Clinical Experience](#)

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Full-time equivalent faculty supervising clinical experience](#)
- [Adjunct faculty supervising clinical experience](#)
- [Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience](#)
- [Supervised clinical experience](#)

Undergraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

1. Are there initial teacher certification programs at the undergraduate level?

- Yes
 No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the table below blank (or [clear responses already entered](#)) then click save at the bottom of the page.

Element	Admission	Completion
Transcript	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No
Fingerprint check	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No
Background check	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input type="radio"/> Yes <input checked="" type="radio"/> No
Minimum number of courses/credits/semester hours completed	<input checked="" type="radio"/> Yes <input type="radio"/> No	<input checked="" type="radio"/> Yes <input type="radio"/> No

Other Specify: portfolio	<input checked="" type="radio"/> Yes <input type="radio"/> No	<input checked="" type="radio"/> Yes <input type="radio"/> No

2. What is the minimum GPA required for admission into the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.5

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.5

4. Please provide any additional information about the information provided above:

Note that although a C- or better is required in all professional coursework, there is not a minimum GPA in professional coursework required for entrance into or exit from the teacher education program. A minimum SAT/ACT score is not required, however, we do monitor basic skills and require that candidates pass the university requirements for math and reading prior to admission to teacher education. Since this is a university requirement and not unique to our teacher education candidates, we checked "no" on "Minimum basic skills test score".

Postgraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

1. Are there initial teacher certification programs at the postgraduate level?

- Yes
 No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the postgraduate level. If no, leave the table below blank (or [clear responses already entered](#)) then click save at the bottom of the page.

Element	Admission	Completion

Other Specify: <input type="text" value="portfolio"/>	<input type="radio"/> Yes <input checked="" type="radio"/> No	<input checked="" type="radio"/> Yes <input type="radio"/> No

2. What is the minimum GPA required for admission into the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

4. Please provide any additional information about the information provided above:

Note that candidates must follow state requirements regarding admission GPA or passage of content tests for Transition to Teaching. When a candidate takes the content test is dependent on their undergrad GPA and/or their licensure area they wish to pursue.

Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2021-22. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)

Number of clock hours of supervised clinical experience required prior to student teaching

Number of clock hours required for student teaching

Are there programs in which candidates are the teacher of record?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom

Years required of teaching as the teacher of record in a classroom

All Programs

Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)

14

[Optional tool](#) for automatically calculating full-time equivalent faculty in the system

Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

15

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

181

Number of students in supervised clinical experience during this academic year

131

Please provide any additional information about or descriptions of the supervised clinical experiences:

We count content area supervisors who visit and evaluate the student teachers. Many students participated in at least 2 field experiences in the year, but they were only counted once. Also, every student teacher has 2 cooperating teachers which explains the large number of cooperating teachers.

Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Enrolled Student](#)
- [Program Completer](#)

Enrollment and Program Completers

2021-22 Total	
Total Number of Individuals Enrolled	185
Subset of Program Completers	62

Gender	Total Enrolled	Subset of Program Completers
Male	33	15
Female	152	47
Non-Binary/Other	0	0
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	2	0
Asian	5	1
Black or African American	2	1
Hispanic/Latino of any race	7	2
Native Hawaiian or Other Pacific Islander	0	0
White	162	57

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	5	0
No Race/Ethnicity Reported	2	1

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

THIS PAGE INCLUDES:

- >> [Teachers Prepared by Subject Area](#)
- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

CIP Code	Subject Area	Number Prepared
13.10	Teacher Education - Special Education	<input type="text" value="6"/>
13.1202	Teacher Education - Elementary Education	<input type="text" value="37"/>

CIP Code	Subject Area	Number Prepared
13.1203	Teacher Education - Junior High/Intermediate/Middle School Education	6
13.1210	Teacher Education - Early Childhood Education	
13.1301	Teacher Education - Agriculture	
13.1302	Teacher Education - Art	4
13.1303	Teacher Education - Business	
13.1305	Teacher Education - English/Language Arts	5
13.1306	Teacher Education - Foreign Language	5
13.1307	Teacher Education - Health	
13.1308	Teacher Education - Family and Consumer Sciences/Home Economics	
13.1309	Teacher Education - Technology Teacher Education/Industrial Arts	
13.1311	Teacher Education - Mathematics	9
13.1312	Teacher Education - Music	2
13.1314	Teacher Education - Physical Education and Coaching	
13.1315	Teacher Education - Reading

13.1324	Teacher Education - Drama and Dance	
13.1328	Teacher Education - History	11
13.1329	Teacher Education - Physics	
13.1331	Teacher Education - Speech	

CIP Code	Subject Area	Number Prepared
13.1337	Teacher Education - Earth Science	<input type="text"/>
13.14	Teacher Education - English as a Second Language	<input type="text" value="2"/>
13.99	Education - Other Specify: <input type="text"/>	<input type="text"/>

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

[What are CIP Codes?](#)

Does this teacher preparation provider grant degrees upon completion of its programs?

- Yes
 No

No teachers prepared in academic year 2021-22

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or [clear responses already entered](#)).

CIP Code	Academic Major	Number Prepared

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Licensure in Indiana requires that the university "include methods for teaching English as a new language..." While Taylor has an English as a New Language licensure program approved by the Indiana Department of Education, all prospective teachers do not obtain this licensure. Courses which include an ENL component are EDU 260, Educational Psychology; EDU 306/307 Classroom Management and Discipline; SED 220, Exceptional Children; EDU 309, Secondary Special Methods; EDU 384, Perspectives on Diversity; and EDU 385, Diversity in the Classroom. The most successful strategies for preparing special education prospective teachers in core academic areas include: creating lesson plans, incorporating an evidence-based instructional strategy learned in class, for each core academic subject; implementation during field experiences of evidence-based instructional strategies learned for each core academic subject; students collect evidence-based instructional strategies in each of the core academic subjects and

compile them in a resource notebook (either hard copy or electronic) The institution's most successful strategies in meeting the assurances of preparing prospective teachers to effectively teach in a variety of schools and with diverse populations is in the required class, EDU 384 Perspectives of Diversity. Prospective teachers learn about culturally and linguistically diverse students, students in poverty, and students at risk. Prospective teachers have a variety of readings, assignments, and discussions as well as a three day trip to an urban city which has proven exceptionally valuable. Other strategies that assure candidates are well prepared are field placements in a variety of settings including at least one setting in a lower SES school or an ethnically diverse school. Almost all education courses include readings, assignments, and discussions on teaching a variety of students including various ethnicities, races, SES levels, and disabilities. For the Elementary Education capstone course, candidates participate in a trip to Nashville and Memphis where they visit schools, meet with principals and teachers in schools, and hear about the Memphis Teacher Residency which offers a Masters in Urban Education. We have had several graduates go through that program.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Quantifiable Goals](#)

THIS PAGE INCLUDES:

- >> [Report Progress on Last Year's Goal \(2021-22\)](#)
- >> [Review Current Year's Goal \(2022-23\)](#)
- >> [Set Next Year's Goal \(2023-24\)](#)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

We would like to maintain the number of teachers prepared in math.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

We attended statewide events such as Be A Teacher Day encouraging students to become educators. We began exploring Grow Your Own programs and diversity programs such as "Call Me Mister". We intensified our work with admissions to recruit students into the field of teaching and actively partnered with the mathematics department to help students identify their talents in regards to teaching mathematics in the classroom rather than only exploring a mathematics degree.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Our efforts did not yield the high number of math completers that we had previously seen. Perhaps the previous year's number was high for some reason.

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in mathematics in 2022-23? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

We would like to maintain the number of teachers prepared in math including junior high math. We are choosing to maintain rather than increase based on the number of undergraduates choosing to pursue education after high school and even fewer choosing to pursue teaching as a career through traditional pathways.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in mathematics in 2023-24? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

We would like to maintain the number of teachers prepared in math including junior high math. We are choosing to maintain rather than increase based on the number of undergraduates choosing to pursue education after high school and even fewer choosing to pursue teaching as a career through traditional pathways.

Annual Goals: Science

THIS PAGE INCLUDES:

- >> [Report Progress on Last Year's Goal \(2021-22\)](#)
- >> [Review Current Year's Goal \(2022-23\)](#)
- >> [Set Next Year's Goal \(2023-24\)](#)

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Quantifiable Goals](#)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in science in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

We would like to have a total of five completers in science which includes the junior high science license added to elementary license.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

We actively partnered with the science departments to collaborate on how to increase prospective teachers attracted to this major. We have intensified our collaboration with admissions to recruit more prospective teachers into science education majors and licensures. We have also been implementing STEM concepts into our elementary science teaching methods course that hopefully will entice more prospective teachers to pursue science for licensure. We have enhanced our elementary education inquiry based activities with a community partnerships in judging science fairs and a trail based education opportunity.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Many students who are interested in science do not want to teach it, but they would rather receive the degree in their science area of interest and not pursue teaching in this area.

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in science in 2022-23? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

We would like to increase the number of prepared students for science, including junior high science preparation.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in science in 2023-24? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

We would like to increase the number of prepared students for science, including junior high science preparation.

Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Quantifiable Goals](#)

THIS PAGE INCLUDES:

- >> [Set Next Year's Goal \(2023-24\)](#)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in special education in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

We would like to have a total of 10 completers.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

Our new Director of Special Education recruits students well; however, there was a decline in prospective teachers sticking to this licensure. We will continue working with admissions and secondary education departments to encourage more prospective teachers to pursue special education licensure. We researched programs to offer to prospective teachers that helped with the cost of special education preparation.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

With COVID and all the strains prospective teachers were put through, many prospective teachers lost interest in pursuing special education. Many remarked that education and teaching were hard enough without the extra stress special educators endured in the classroom.

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in special education in 2022-23? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

We would like to, at a minimum, maintain or increase our number of completers in special education.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in special education in 2023-24? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

We would like to, at a minimum, maintain or increase our number of completers in special education.

Annual Goals: Instruction of Limited English Proficient Students

THIS PAGE INCLUDES:

- Yes
 No

10. Describe your goal.

We would like to increase our number of completers with this preparation.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Summary Pass Rates

Group	Number taking tests	Number passing tests	Pass rate (%)
All program completers, 2021-22	56	52	93
All program completers, 2020-21	53	49	92
All program completers, 2019-20	48	43	90

Low-Performing

THIS PAGE INCLUDES:

>> [Low-Performing](#)

Provide the following information about the approval or accreditation of your teacher preparation program. ([§205\(a\)\(1\)\(D\)](#), [§205\(a\)\(1\)\(E\)](#))

Note: This section is preloaded from the prior year's IPRC.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

Use of Technology

THIS PAGE INCLUDES:

>> [Use of Technology](#)

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

 Yes

 No

- b. use technology effectively to collect data to improve teaching and learning

 Yes

 No

- c. use technology effectively to manage data to improve teaching and learning

 Yes

 No

- d. use technology effectively to analyze data to improve teaching and learning

 Yes

 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Taylor prepares teachers to integrate technology effectively into curricula and instruction, and to use technology to increase student learning. All candidates are required to develop an electronic portfolio in their freshmen year. It is then updated for admission to student teaching and in student teaching. Candidates document mastery of content and professional skills as well as the InTASC standards. An electronic portfolio is required as a portion of the student teaching experience. One portfolio task is to document student learning. All elementary candidates are required to take EDU 242 Educational Technology in Elementary Education . Students become aware of a variety of software and hardware and its application to classroom instruction. All secondary candidates, except math education candidates, are required to take EDU 344 Educational Technology in Secondary Education. Math education candidates take MAT 285 Technology for Math Education. The Educational Technology in Secondary Education class includes integration of technology into instruction and assessment. Music education candidates take MUS 201 Computers, Technology & Music which includes techniques and strategies for using technology in music education. Art education majors take COS 104 with topics of hardware, software, operating systems, graphical user interfaces, data storage technologies, spreadsheets, concepts of computation, and ethical issues. All candidates are expected to develop and utilize technology in the educational classes as well as many Arts and Sciences classes. All candidates in elementary and secondary methods classes are expected to develop and apply technology within class projects and for class presentations to address student learning. During student teaching, technology is used by student teachers to enhance student learning. Student teachers collect, manage, and analyze data via technology for their Impact on Student Learning project.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All candidates are introduced to the concept of P-12 students with disabilities in EDU 150 Education in America. Further concept development occurs in EDU 260 Educational Psychology. All candidates take SED 220 Exceptional Children, which addresses students with disabilities, gifted and talented students, and culturally and linguistically diverse students. Activities include chapter readings, test items, accommodations lesson plan, videos of special education teachers presenting information on needs, accommodations, instructional techniques, and behavior of students in special education. Special education topics are also addressed in the elementary program in the method's class as well as the two literacy and assessment classes. In the secondary program, special education topics and issues are also addressed in the general methods class.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Candidates in SED 220 Exceptional Children read about the process of creating an IEP, what is included in an IEP, the roles of the IEP team members, and hear guest lecturers from various perspectives such as parents and individuals with disabilities. Candidates view videos of special education teachers who give advice on working as a member of an IEP team and a video of a case conference. Candidates review and discuss examples of real IEPs and answer test questions on the videos, guest lecturers, and chapter readings. Candidates must create an accommodations lesson plan based on a real IEP.

c. Effectively teach students who are limited English proficient.

All candidates are introduced to the concept of P-12 students who are culturally and linguistically diverse in EDU 150 Education in America and in EDU 260 Educational Psychology. In addition, there are readings and assignments in SED 220 Exceptional Children. Activities include chapter readings, test items, reflections on culturally responsive teaching, and readings on restorative justice. Topics on working with limited English proficient and culturally diverse students are also addressed in the elementary program in the method's class as well as the two literacy and assessment classes. In the secondary program, topics and issues on working with students who are limited English proficient and culturally diverse are also addressed in the general methods class.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

Each special education course builds on the previous course so that upon completion of the program, prospective teachers are well prepared to teach students with disabilities. • SED 220: Build knowledge base regarding the disabilities identified in IDEA. Requirements include: videos of various individuals with disabilities to learn first person accounts; hands on in-class activities in which students actively participate as either a student

with a disability or a teacher; a disability simulation; research paper regarding a self-selected disability category. • SED 330: Continue to build knowledge base teaching individuals with disabilities; special education law is covered regarding the education of students with disabilities; emphasis is on early childhood interventions Requirements include: videos of various individuals with disabilities to learn first person accounts; hands on in-class activities in which students actively participate as either a student with a disability or a teacher; service project volunteering in a community organization with individuals with disabilities; field experience in a special education preschool classroom • SED 340: Assessment of Exceptional Learner: Prospective teachers learn the assessment process for qualifying students with disabilities for special education services Requirements include: videos of various individuals with disabilities to learn first person accounts; hands on in-class activities in which students actively participate as either a student with a disability or a teacher; field experience in an elementary or high school special education classroom in which various assessments related to the evaluation process are administered and then scored. Students are required to write a comprehensive report of all of the assessments given. • SED 350: Behavior Management & Disorders: Focus is on behavior strategies to implement for students with emotional/behavioral disabilities Requirements include: videos of various individuals with disabilities to learn first person accounts; hands on in-class activities in which students actively participate as either a student with a disability or a teacher; field experience in an elementary or secondary special education classroom in which a functional behavioral assessment is given and a behavior intervention plan is written; students are also required to write an IEP for a behavior disability • SED 355: Methods of Special Education: Prospective teachers learn instructional strategies for facilitating learning for students with disabilities; students also learn the components of an IEP and how to write one Requirements include: videos of various individuals with disabilities to learn first person accounts; hands on in-class activities in which students actively participate as either a student with a disability or a teacher; field experience in an elementary or secondary special education classroom in which students implement instructional strategies learned in the course; university lesson plans are required; IEP for an academic area is required • SED 440: Special Education Integrative Seminar: Senior seminar in special education; students take this after student teaching; discussion of contemporary issues in special education Requirements: Scholarly research on contemporary issues in special education; writing personal philosophy of special education backed by current research

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

First, prospective teachers learn the requirements of IDEA (SED 220, SED 330). Prospective teachers are required to write comprehensive reports which would be presented at a Case Conference Committee meeting. Prospective teachers are required to write IEPs for a student with a behavior disability as well as one with a learning or intellectual disability. Prospective teachers participate in several mock case conferences, taking on different roles each time. The requirements of IDEA are integrated throughout all activities and courses.

c. Effectively teach students who are limited English proficient.

All candidates are introduced to the concept of P-12 students who are culturally and linguistically diverse in EDU 150 Education in America and in EDU 260 Educational Psychology. In addition, there are readings and assignments in SED 220 Exceptional Children. Activities include chapter readings, test items, reflections on culturally responsive teaching, and readings on restorative justice. Topics on working with limited English proficient and culturally diverse students are also addressed in the elementary program in the method's class as well as the two literacy and assessment classes. In the secondary program, topics and issues on working with students who are limited English proficient and culturally diverse are also addressed in the general methods class.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Taylor University is an evangelical, independent, interdenominational Christian liberal arts college. Taylor was organized in 1846 in Fort Wayne, Indiana, as Fort Wayne Female College. In 1890, it changed its name to Taylor University in honor of Bishop William Taylor; and in 1893 moved to Upland, Indiana. As an interdenominational Christian institution, Taylor's mission is to educate men and women for lifelong learning and for ministering the redemptive love of Jesus Christ to a world in need. All Taylor University education programs hold to a Christian world view and are characterized by the integration of faith and learning. Taylor University Education Department's mission is to "Develop Competent, Caring, and Reflective Teachers Prepared for World Service." The belief that teachers who have experienced a vigorous professional preparation within the framework of evangelical Christian values will have a profound influence on the students they teach in public, private and/or overseas schools pervades the education program. The conceptual framework involves developing teachers who are competent in their subject matter concentration and pedagogical skills, caring and learner centered, and thoughtful individuals who reflect upon all aspects of their professional growth. The Taylor University Teacher Education Program is a four-year undergraduate program. The major strengths of the program include a freshman introductory education course with an extensive field placement, professional portfolios required to enter the program, to enter student teaching, and at the end of student teaching, a full semester of student teaching including two placements, and clinical field placements throughout the entire program. The Education Department requires and guarantees that all teacher education candidates have field experiences in school settings that provide for socio-economic, cultural, ethnic, and/or racially diverse student populations. Prospective teachers are continually evaluated by multiple assessments throughout the four-year program. During the sophomore year, prospective teachers formally apply to the Teacher Education Program. The criteria include a cumulative grade point average of 2.5, a departmental recommendation that includes dispositions, passing basic skills tests of reading and math, and meeting the portfolio requirement. During the junior year, students formally apply for the Student Teaching Program. The criteria include a cumulative grade point average of 2.5, a major grade point average of 2.67, departmental recommendation that includes dispositions, and meeting the portfolio requirement. The electronic portfolio requirement at entrance into teacher education, entrance into student teaching, and at the end of student teaching requires students to document growth in meeting InTASC principles and state developmental and content standards as required by the Indiana Department of Education. Extensive field experiences are prevalent in courses prior to student teaching. Candidates participate in field experiences in all three years prior to student teaching. Taylor requires a full semester of student teaching in which the candidate has two student teaching experiences. This is a major strength of the education program. Candidates currently student teach in their major area and in the area of their endorsement/minor as well as at different grade levels. Candidates are supervised by cooperating teachers as well as university supervisors who make at least five formal and documented observations during the student teaching experience; additionally, content area supervisors make at least one formal and documented observation during the student teaching experience. The Education Department utilizes three centers for student teaching placements: Indianapolis, Fort Wayne, and Upland area. Candidates may also participate in an overseas student teaching experience or an urban student teaching experience in Los Angeles as the second experience. The diversity of placements enhances opportunities for education students to experience students of diverse student populations. The Indiana Department of Education collects principal surveys and surveys from all in-state teachers for their first three years of teaching and shares the data with the EPP. The survey consists of questions in three areas: knowledge preparation, pedagogical preparation, and professional disposition with an overall question of satisfaction with their training. Survey data indicate that principals across programs agree that alums are well prepared in content knowledge, pedagogy, and dispositions and 95-99% of alums were rated as effective or highly effective from principals in the past three years. Surveys indicate that 98-100% of alumni rate their preparation as good or excellent in the past three years. These data indicate that Taylor graduates are well prepared and quality professionals in the classroom.

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Report Card Certification

Please make sure your entire report card is complete and accurate before completing this section. Once your report card is certified you will not be able to edit your data.

Certification of submission

I certify that, to the best of my knowledge, the information in this report is accurate and complete and conforms to the definitions and instructions used in the *Higher Education Opportunity Act, Title II: Reporting Reference and User Manual*.

NAME OF RESPONSIBLE REPRESENTATIVE FOR TEACHER PREPARATION PROGRAM:

Shelly Engle, Ph. D

TITLE:

Director of Teacher Education
